### STOCKS AND BONDS

NEW YORK, July 14.—The week on the stock exchange opened with a continuance of last week's buoyant and varied dealings, further heavy buying resulting from the large accumulation of orders over the recess.

Again the movement appeared to be based on easy financial conditions and the numerous optimistic surveys and opinions from various sections of the country, these being tempered in a measure, however, by indications of further crop deterioration.

Western and southwestern speculative interests were credited with much of the new buying, which concentrated to an unwonted extent in equipments comprehending the steel and iron shares and motors and their specialties.

Leaders of the movement, which lost little of its vigor despite extensive realizing for profits, including Crucible Steel at a net gain of 17 points and Baldwin Locomotive and Stutz motors each gaining 10 points, with the latter at a new maximum.

Bethlehem Steel, American Car, American Locomotive, Central Leather leading coppers and allied metals and several of the motor subsidiaries participated in the movement at 2 to 6 point gains. Rails were relatively backward and shippings failed to retain their early gains. Sales 1,850,000 shares.

Liberty bonds were steady, but the bond list as a whole was without material change. Total sales, par value, \$11,175,000. Old United States bonds were unchanged on call.

### THE GRAIN MARKETS

CHICAGO, July 14.—Welcome eased the corn market after an early advance. The market closed unsettled at a decline of 3/4 to 20 net with September \$1.95 to \$1.94 1/4, and December \$1.82 1/2 to \$1.83. Oats finished 1/4 to 1/2 down. In provisions the outcome ranged from 30c off to a rise of 15c.

Until news came that moisture had been supplied in Kansas, Iowa and in other important sections where there was need, the corn market showed decided upward tendencies. Sentiment changed quickly after selling was started by dispatches telling of rains. Houses with southwestern connections were leaders in demonstrating that at least for the time being the market had been overbought.

Better weather for oats as well as for corn brought about a late setback in the oats market.

Provisions were away chiefly by the action of corn. Trade was dull, pending fresh developments in regard to export requirements.

### THE COTTON MARKET

NEW YORK, July 14.—Cotton closed very steady at a net advance of 40 to 63 points.

### THE METAL MARKET

NEW YORK, July 14.—Lead, firm; spot \$5.50. Spelter, firm; spot \$1.06 1/2. Copper strong; electrolytic, spot 21c.
